

RETURNS . . . Dr. Robert Long, member of the El Camino chemistry faculty for eight years, is back at the campus lab advising a student after a year's study at the California Institute of Technology under a National Science Foundation grant.

College Offering New Courses in Chemistry

Two new courses in the vital field of organic chemistry will be offered in the evening program at El Camino College during the spring semester. William T. Mooney, assistant director for physical science, announced this week.

"When one looks at product fields of plastics, synthetic fabrics, detergents, insecticides, and drugs and how they have become common in every day life, one can realize the importance of organic chemistry for today's students," Mooney said.

Of the two courses, chemistry 7A-7B will be offered in a two semester program. Course 7A will meet on Tuesday and Thursday evenings from 6:30-10:30 p.m. beginning on Jan. 29. The second half of the course will be offered during the fall.

COURSE WORK, both lecture and lab, treats organic chemistry from a structural and reaction-mechanism approach. "This lays a foundation for understanding why organic reactions occur," Dr. Robert Long, course instructor, explained.

Prerequisites for the course is one year of college chemistry which must include qualitative analysis, and a grade of "C" or better.

Laboratory work for 7A-7B will introduce students to such techniques as fractional distillation, chromatographic separation, reduced pressure distillation and steam distillation.

Dr. Long, member of the El Camino chemistry faculty for eight years, has just returned from a year of study at the California Institute of Technology.

Treat yourself to our newest Cookie-Confection, "Cherry Bon Bons," a rich and chewy treat you'll want to repeat during the Holiday Season. Simply beat 2 egg whites until they form stiff peaks, then add gradually 1/2 cup sugar, beating it in slowly to form stiff peaks. Fold into the stiff whites 1 cup chopped dates, 1 cup shredded coconut, 1 cup coarse chopped pecans, 1 teaspoon vanilla. Spread this mixture in an ungreased 13 by 9 by 2 inch pan, and bake for 20 minutes until just lightly brown. Take the pan out of the oven, turn the mixture into a bowl and add 1/2 cup drained maraschino cherries. Mix, cooling just enough to handle the dough. Shape into small balls with the hands and roll in granulated sugar. Makes 16 Bon Bons.
